Aboriginal First Nations

Our Own Names & Locations

Not Monolithic

This map is the most comprehensive ever created of the First Nations of Canada. It utilizes the original and true tribal names for each Nation, and shows where each Nation was originally, before contact with Europeans. It includes the names of the Nations who survived this incursion, as well as those that did not, honoring the memory of those who have fought tenaciously to hold on to their homelands. It is a visual reminder of those who have called this land home since time immemorial, creating a sense of pride for First Nations people, and a better understanding for the non-Native public. To Aboriginal First Nations peoples, this land will always be our ancestral homeland.

Doctrine of discovery

The Roman Catholic Church was very powerful in the 1200's – 1400's

The Doctrine of Discovery come from the Pope in the 1400's.

Discovery of any land, that was not lived in by Europeans, could be claimed for Europe. This allowed Europeans to colonize other places.

Colonize

If people colonize a foreign country, they go to live there and take control of it.

When large numbers of animals colonize a place, they go to live there and make it their home.
